

An Outline of Lecture Notes on General Chemistry (Classic Reprint)

Filesize: 9.17 MB

Reviews

It becomes an awesome publication that I actually have actually read. It really is written in simple terms and not difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Talia Cormier)

AN OUTLINE OF LECTURE NOTES ON GENERAL CHEMISTRY (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from An Outline of Lecture Notes on General Chemistry This little volume is not intended to take the place of the student's notes, but simply to serve as a basis of notes to be taken on a first course of experimental lectures on general chemistry. By its use the student will be relieved from the most irksome and least valuable part of his note-taking, and left free to give closer attention to the lecture and its accompanying experiments. In this edition the text has been carefully revised and some new matter added to the appendix. To those who have found the book useful in the past, it will, I trust, prove still more helpful in its revised form. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
