Forgotten Books, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Compendium of Human Histology I have prepared M. Morel's Compendium of Histology for the use of the American medical student in consequence of the excellence and fidelity of its plates, and the clear and concise manner in which all that is positively known of the science, up to the present moment, is set forth in the text. An original work of the same character and similarly illustrated would involve a much greater expense, even if the same degree of merit could have been attained. Histology, at the present day, is the progressive department of anatomical science, and its rapidly accumulating facts form the basis of modern physiology and pathology. Still in its youth, it is advancing steadily from year to year, and to keep pace with its progress, we must draw constantly upon all reliable sources of information. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
